O R D E R

In a certificate case under KRS 278.020, the Commission determines whether or not to grant a certificate of convenience and necessity based upon its consideration of the need for the service, avoidance of wasteful duplication, and financial capability of the applicant. American Paging, Inc., has not provided as a part of its application information establishing that the proposed services are needed by the public and, therefore, would not be a wasteful duplication of services and facilities already provided in the Lexington and Louisville areas. Further, American Paging has not filed a schedule of the rates it proposes to charge its customers.

IT IS THEREFORE ORDERED that American Paging shall file an original and eight copies of the following information with the Commission with a copy to all parties of record by April 17, 1985. If neither the requested information nor a motion for extension of time is filed by the stated date, the case may be dismissed.
